

Make Diagnosis More Valuable

Multiplex Real-Time PCR Diagnostic Kit for

RAPID DETECTION

of 6 respiratory viruses

北京卓诚惠生生物科技股份有限公司
Beijing Applied Biological Technologies Co.,LTD.

NUCLEIC ACID DETECTION

More reliable pathogen diagnosis method

Detection target

- influenza A virus, Influa
- influenza B virus, Influb
- respiratory syncytial virus, RSV
- adenovirus, ADV
- parainfluenza virus type I, PIVI
- parainfluenza virus type III, PIVIII

Product features

-  **Sample Type:** Nasopharyngeal swab
-  **Comprehensive:** 6 targets detected in 2 tubes
-  **Faster results:** 1 hour post-extraction turnaround time
-  **Reliable:** Internal control
-  **Limit of detection:** 200 copies /mL.
-  **Instrument:** Four-channel RT-PCR instrument (FAM, VIC/HEX, CY5, ROX)

Product Information

Registration certificate	China NMPA: GUOXIEZHUSHUN
Product	Multiplex Real-Time PCR Diagnostic Kit for Rapid Detection of 6 respiratory viruses
Specification	48 tests/kit
