

# Technical Data Sheet

Single-Use Disposable Tourniquets

## Product Information

### Description

The tournikidz® is a disposable, Single-Use tourniquet designed for assisting venepuncture in blood sampling and intravenous cannulation in patients' under 12 years old.

Brand: tournikidz

Manufacturer Part Number: TOURNIKIDZ  
TSKIDZ4I275DP/ASEPIOO

### Function

Strip to be placed around the patients extremity and tapered end to be placed through the pre-cut hole in the opposite (larger) end with the Printed side facing outwards. Adhesive release liner to be removed before tightening the strip to the desired tension to allow for adequate exposure of the desired blood vessels to occur. Strip to be held under tension in situ by sticking the loose end of the strip to the adhesive area exposed underneath. Strip can be easily removed by pulling both ends of the strip away from the adhesive area. Strip should be disposed of after a single use to avoid cross infection risks between subjects.

Product Description: Children's Single Use Tourniquet

### Dimensions

50mm Cardboard Core

### Materials

Substrate material: TransferPP96 Matt  
White/SP8000/WG6-M:
