

NEW

ACLTOP[®]
Family 50 series

Introducing The most advanced systems in Hemostasis testing.

HEMOSTASIS INNOVATION IS HERE. ▶

A breakthrough in Hemostasis testing.

New **ACL TOP Family 50 Series**

Offering the most advanced automation and quality management from routine to specialty assays.

Standardized across all ACL TOP systems—for superior performance across your entire testing process

- **Same** quality results
- **Same** comprehensive reagent portfolio
- **Same** powerful and intuitive software
- **Same** features and usability

And now:

- **Same** assay-specific pre-analytical sample checks
- **Same** advanced lab accreditation support
- **Same** advanced quality management

ACLTOP[®]
Family 50 series

The *new* ACL TOP Family 50 Series is designed to **minimize errors** and **enhance quality**.

The ACL TOP Family 50 Series

Comprehensive assay menu for disease state management

Automated pre-analytical sample integrity checks

- Detects interference from Hemolysis, Bilirubin or Lipemia
 - Values exceeding assay-specific thresholds are flagged
 - Pre-set to validated thresholds with optional customization
- Detects tube-fill height issues
- Flags abnormal sample aspiration, prompting user to check for clots

Advanced quality and accreditation support tools

- Most comprehensive set of audit-trail tools available
- Time, date and operator stamps for all analyzer functions and activity
- Maintenance, QC and calibration logs, and temperature report
- Comprehensive and secure one-click audit reports

Enhanced system security

- Second-level password and electronic signature
- Automatic system log-off
- System-access restriction with user-specific log-in and password
- Automatic password expiration
- Comprehensive 21 CFR Part 11 support tools
- Optional user-access restriction to patient-demographic information

HemosIL assays

ACL TOP Family 50 Series systems are optimized to operate with a comprehensive panel of HemosIL assays. Together, they are a complete disease-state management solution. Innovative HemosIL assays, routine to specialty, help guide pathways for better patient care that can reduce costs associated with hospital length-of-stay and therapeutic management.

True standardization throughout the lab for routine and specialty assays on all ACL TOP systems

General Screening and Anticoagulant Monitoring/Testing <ul style="list-style-type: none"> RecombiPlasTin® 2G PT-FIB HS Plus ◆ SynthASil ◆ APTT-SP Fibrinogen-C Q.F.A. * Not FDA cleared. Not saleable in the U.S. | ◆ Liquid, ready-to-use format.

◆ Increased efficiencies with HemosIL liquid, ready-to-use assays

- The great majority of Hemostasis tests performed in laboratories today are comprised of PT and APTT; therefore, their efficient use is essential.
- HemosIL high-sensitivity, liquid, ready-to-use assays are available for PT, APTT, D-Dimer, Anti-Xa and more.
- These assays deliver efficiency by:
 - Eliminating reconstitution errors for more accurate results
 - Eliminating extra pipetting steps for increased efficiency
 - Reducing labor utilization overall

Significant Reduction in Hands-on Tech Time for Vial Reconstitution*

Reduced by ≈ 65%**

* Data on file, IL.

** Assumes high-volume, routine testing with PT, APTT, D-Dimer and Fibrinogen assays.

NEW

ACLTOP
Family 50 series

A new breakthrough in Hemostasis testing

ACL TOP Family 50 Series systems are the first in Hemostasis testing to automate and integrate:

- Pre-analytical sample integrity checks
- Advanced quality management
- Lab accreditation tools

ACL TOP Family 50 Series. Advanced automation and quality for lab efficiency and better patient care.

ACL TOP Family 50 Series standardizes the Hemostasis testing process—for flexibility, efficiency and enhanced patient care
