

Large Horizontal Pulse Vacuum Autoclave

(Side cover optional)

Introduction:

For sterilization of medical surgical instruments, dressings, fabrics, etc. in medical and pharmaceutical units.

Features:

- * The main body of the annular stiffener has higher strength and stability, more uniform stress and temperature distribution.
- * The use of pressure transmitters for pressure control and pneumatic valves for drainage, Intelligent and efficient.
- * With multiple Interlock function, water-saving and noise reduction devices, intelligent fault alarms, information prompts function.
- * The touch screen with large memory can store multiple print records.
- * Siemens control system, stable and reliable.

Technical Parameters:

Model	BKQ-Z1200H
Capacity	1200L (316L optional)
Designed Pressure	-0.1/0.3MPa
Max Working Temp.	139°C
Working Pressure	0.28MPa
Chamber Material	SUS30408
Power Supply	380V, 50Hz
Chamber Size(W*D*H)	1500*680*1180mm
External Size (W*D*H)	1760*1450*2100mm
Packing Size (W*D*H)	1910*1600*2250mm
Gross Weight	2100kg
