

Innovative life science solutions

Pre filled container Standard and Safe System

Disposable contaiers pre-filled with formaldehyde 4% based fixative, used in histology and cytology as primary fixative. The stability and the high quality of Histo-Line Laboratories formalin guarantee an highly effective and reproducible fixation.

Wide range of available sizes according to specimens to be fixed.

That containers are useful for the storage of pathology, industrial, and environmental samples, and these containers are made of **high-quality plastic** to resist breakage. Container lids screw on or snap into place easily and provide reliable **security for specimens** in transit or in storage.

Formalin prefilled container safe system

Above the layer of formalin is an **inert liquid** and composed by non-hazardous reagents, maintains formalin features, protecting operators from formalin harmful vapors.

This product provides:

- fixed in formalin without dangerous leaks of formalin fumes
- no changes in lab
- no changes in management of specimens and protocols
- ready-to-use pre-filled containers
- quarantee of safety for operators

CE IVD

Pre filled container

Technical features

Standard and Safe System

Code	Description	Packaging
07-124-01-S	Formalin prefilled container safe system	22 pz. x 1000 ml
07-124-02-S	Formalin prefilled container safe system	224 pz x 20 ml.
07-124-03-S	Formalin prefilled container safe system	150 pz. x 30 ml
07-124-04-S	Formalin prefilled container safe system	150 pz. x 40 ml
07-124-06-S	Formalin prefilled container safe system	90 pz. x 60 ml
07-124-09-S	Formalin prefilled container safe system	90 pz. x 90 ml
07-124-12-S	Formalin prefilled container safe system	50 pz. x 120 ml
07-124-15-S	Formalin prefilled container safe system	50 pz. x 150 ml
07-124-16-S	Formalin prefilled container safe system	50 pz. x 160 ml
07-130-S	Containers transparent cap pre-filled safe system	24 pz. x365 ml
07-131-S	Containers transparent cap pre-filled safe system	22 pz. x1000 ml
07-133-S	Containers transparent cap pre-filled safe system	16 pz. x500 ml
07-143-S	Containers transparent cap pre-filled safe system	6 pz. x2000 ml
07-144-S	Containers transparent cap pre-filled safe system	5 pz. x3000 ml
07-145-S	Containers transparent cap pre-filled safe system	4 pz. x5000 ml
07-147-S	Containers transparent cap pre-filled safe system	1 pz. x11.500 ml
07-148-S	Containers transparent cap pre-filled safe system	1 pz. x26.500 ml
